DETAILED ACTION

Reasons for Allowance

Claims 1-7 and 15 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest the module oil seal except for the face plate being reciprocally mounted within the clevis, and the face plate being reciprocally mounted within the bulkhead coupling such that the face seal abuts an adjacent surface of the coupling to make a seal as set forth in the claimed combination in each independent claim.

Claims 8-14 and 16-22 are allowable over the prior art for at least the reason that the prior art fails to teach or reasonably suggest the tube stop first end having at least one slot across its first end diameter for allowing compression of the tube stop first end within the fiber seal retainer second end to a snug fit as set forth in the claimed combination in each independent claim.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
